

Holly / Coffe table 44x45 Design /

The Holly collection consists of: a small armchair, a relaxing lounge chair, foot stool, sun lounger and low table. Up to 8 sun loungers with retractable wheels can be stacked together. A long, S-shaped, extruded profile forms the legs and arms. The fabric wraps around and covers the side sections of the bed and back. An optional sunshade can be attached to the back and the sun lounger also comes complete with a small, two-tiered, flat, sheet-metal table. The aluminium structure ensures the product is weather, humidity and salt water resistant. The Holly armchair and chair can both be stacked. They have an aluminium and stainless steel structure, whereas the EMU-Tex seat and back are designed to be easily replaceable. A comfortable aluminium and EMU-Tex footrest also fits the little armchair and lounge chair.

Description

Code: **196**

Typology: **Coffee Tables**

Collection: **Holly**

Static Load: 100 Kg
Shape: Rectangular

Technical Info

Width: **44 cm**

Materials

Aluminium

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.
