

# Tondo

DESIGN STEFAN BORSELIUS

Tondos grundtanke handlar om spänningen som uppstår i spelet mellan motsatser. Tondo är tänkt att fungera lika bra i det offentliga rummet som hemma, vara tunn men ändå mjuk, enkel men egen, lätt men gedigen. Tondo ska vara klassisk men ändå lekfull och dessutom älskad av alla.

*The basic idea behind Tondo is about the tension that arises in the game of opposites. It is designed to work equally well in public spaces and at home, it's thin but still soft, simple yet still its own, lightweight but sturdy. It should be classic yet playful and loved by all.*
