A black metal slatted bench is positioned on a light-colored gravel path in a garden. The bench is composed of several sections, each with a curved backrest and a slatted seat. The slats are closely spaced and create a rhythmic pattern. The bench is surrounded by lush greenery, including large bushes of white and red roses. The path is bordered by a low wall or hedge. The overall scene is bright and sunny, with strong shadows cast by the bench and the surrounding plants.

HAY

PALISSADE PARK COLLECTION

The result of an ongoing collaboration between HAY and the Bouroullec brothers, the Palissade Park Bench and Park Dining Bench are the latest additions to the iconic Palissade outdoor furniture series. The benches were created from the desire to offer a flexible, modular seating solution for larger outdoor spaces, whilst retaining the same symmetrical idiom and visual simplicity as the rest of the series. Combining multiple benches together gives users the opportunity to extend the available seating space and form unique configurations to suit specific functional and aesthetic requirements. Designed in colour and form to integrate effortlessly into a natural landscape or urban setting, the collection suits a wide variety of larger outdoor environments such as gardens, parks and public spaces.
