

Kizu Portable Table Lamp

Lars Tornøe

Balancing bold forms, the Kizu Table Lamp intrigues the eye with its sculptural composition, and this portable version of the lamp is no exception. Materials and expression are as we know them, but this cordless, smaller size is easy to move around where light is needed. With marble as the bearing element, the lamp obtains natural stability and the polished stone feels comfortable to the touch. As the light spreads from the entire upper part of the lamp, the small table lamp offers a high light output. A turned countersunk metal circle on the top of the lamp adds a refined detail to the design, and by tapping gently on the circle, the light can be dimmed to three different levels. The Kizu Table Lamp Portable has a battery life of 10 hours at a light setting of 100% and is charged with a USB-C cable.
