Secto 4230 wall lamp

natural birch, black laminate or white laminate, walnut veneer

- The shade is made of form pressed birch slats
- White and black finishes have been laminated
- Walnut finish has a waxed walnut veneer on top
- Height of the shade 60 cm, diameter 30 cm, depth 19 cm, weight 1 kg
- Wall lamps come with a cable and a switch. Also available with a direct wall mounting, please specify when placing the order
- Cable length 240 cm, the cable is always white
- Bulb base E27
- Included light bulb:
Megaman LED Classic, E27, 11 W, 1055 lumen, 2800 K, warm white
- International Protection Rating: IP20
- Dimension of the box: 36 x 20 x 66 cm, 2 kg

Please note that there must always be 15 mm around the bulb for air circulation. The use of special bulbs such as halogen, mirror or 12 V bulbs in Secto Design lamps is forbidden, due to overheating.

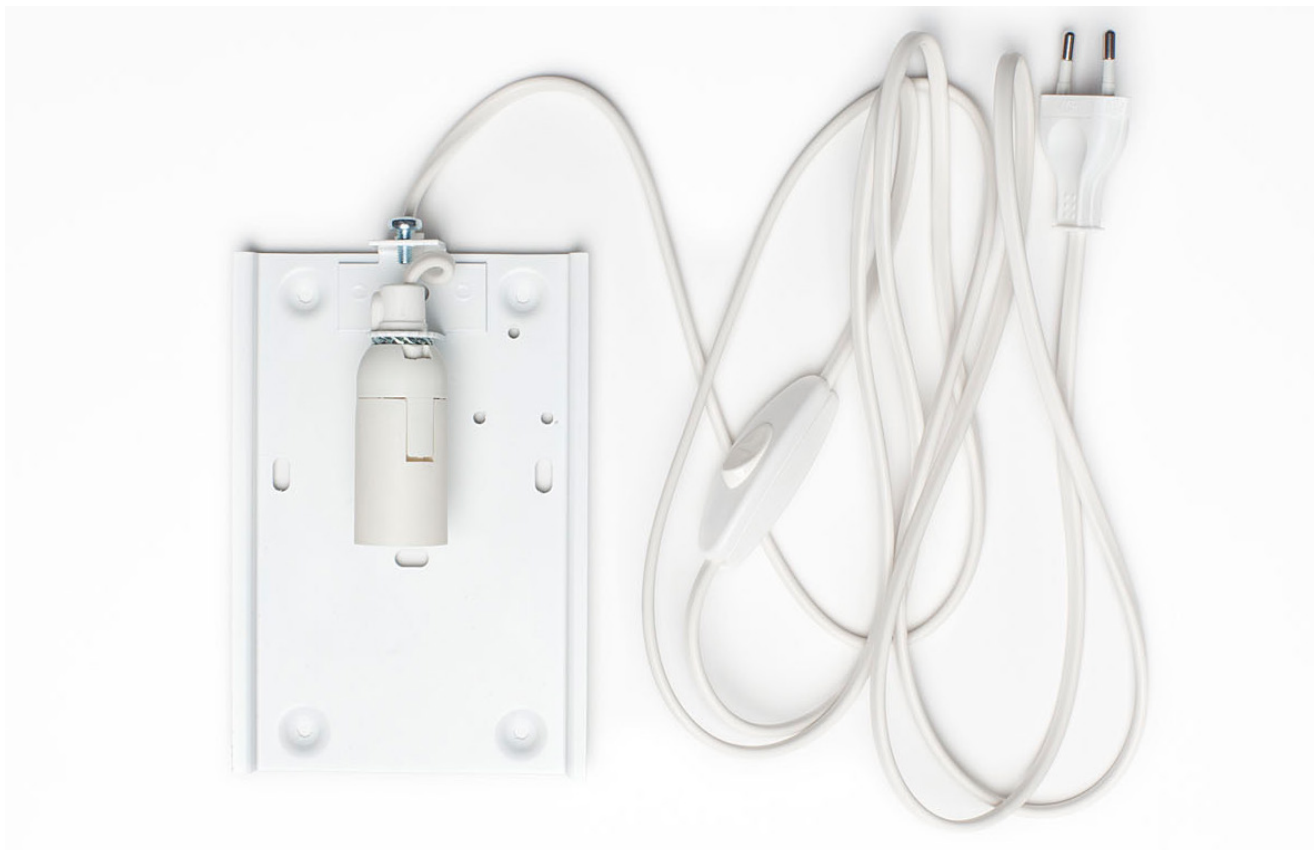

Secto 4230/4231 wall lamp back plate, standard version/wall mount version

Height	15,5 cm
Width	10,5 cm
Lampbase	E14 max. 40 W
Cable length	240 cm (standard version)
Information	The back plate of the Secto 4230/4231 wall lamp is made of powder painted steel. The lamp base is attached to the back plate. The shade has wooden rails for the plate. The plate is fastened to the shade with a top screw.

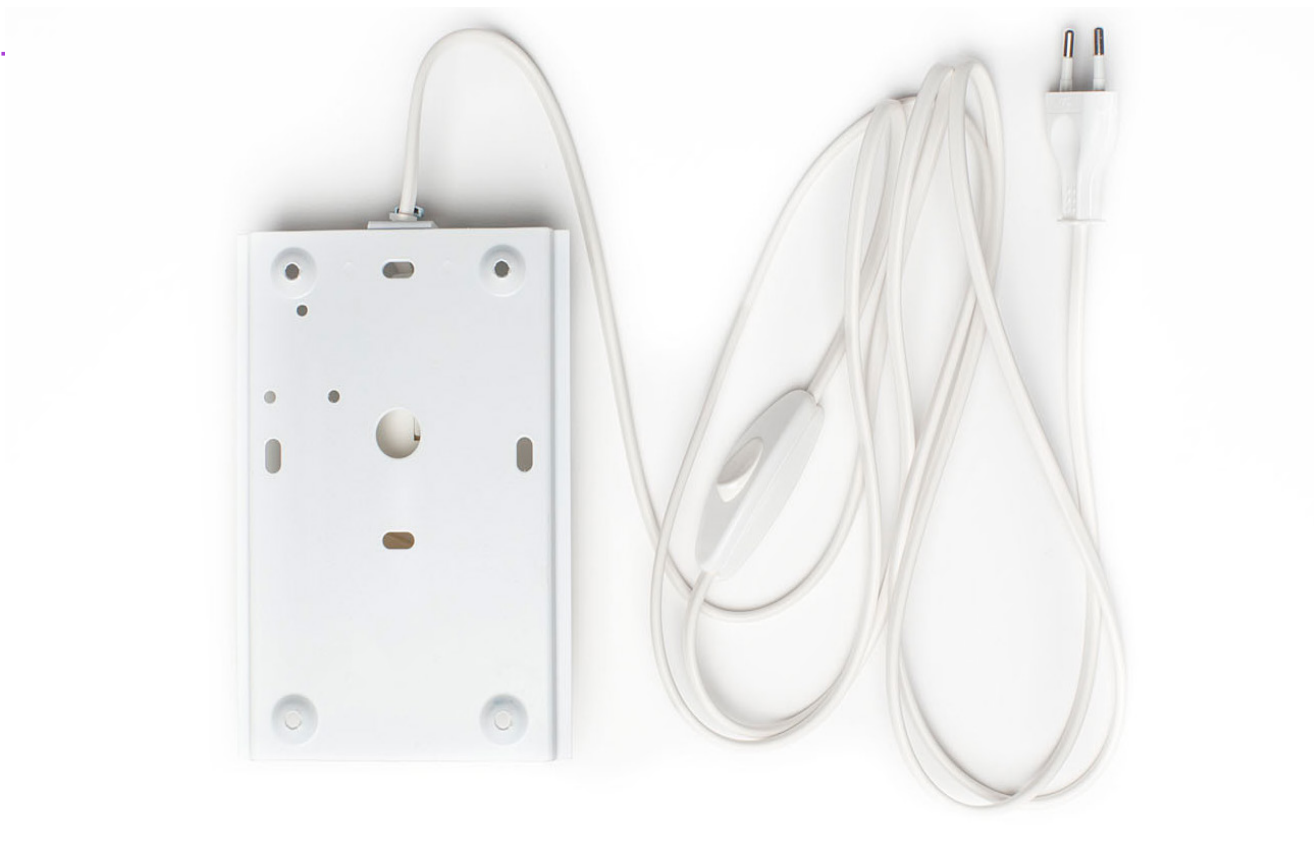

The standard version comes with a cable, a switch and a plug. The wall lamp can be installed with the cone part upwards or downwards. When the cone part is downwards the cable runs down between the plate and the wall.

The wall mount version (by special order) can be mounted directly to the cables coming out of the wall socket by an electrician.

The wall lamp is screwed to the wall. The wooden shade is then slid onto the plate along the wooden rails which are on the long sides of the plate.
