SLANT
DESIGN BY BRANCH, 2021

Inspired by the power of shapes and how they impact their surroundings, Japanese design team Branch's Slant Lamp features a bold graphic aesthetic that takes possession of the space it occupies. Comprising a simple, slanted cylindrical form with a weighted base to keep the angle perfectly balanced, all components are concealed within to retain the clean, elemental silhouette. Crafted in aluminium with a wet spray satin finish to create a smooth surface, it utilises a standard retro fit bulb, hidden away behind the lamp's acrylic diffuser, which softly distributes the light. Available in several colour options, Slant's sculptural design and functional, directional light make it suitable for a variety of home and office settings.
