REGISTA MONICA ARMANI

DESCRIPTION

Regista is a sophisticated reinvention of a design icon. The classic director's chair has been given a leading role in Italian designer Monica Armani's refined interpretation. This perfectly balanced chair combines high-tech materials and meticulous attention to detail. The lattice back has the natural look and tactile appeal of rope. It is handwoven using an innovative weather-resistant fibre, also used to cover the armrests. The slim, elegant profile of the Regista chair is made possible by the use of powdercoated stainless steel. It allows the arms and backrest to be thin yet very strong. The slender legs are finished in durable powdercoated aluminium. A locking system keeps the chair closed when it is folded and can be simply unlocked.

MATERIALS

- Arms & backrest: 304 stainless steel, powdercoated with a durable polyester coating. The armrests are partly covered with Tricord (polyolefin)
- Legs: aluminium, powdercoated with a durable polyester coating
- Backrest: plaited Tricord (polyolefin)
- Seat: 47% Sunbrella® acrylic, 50% recycled Sunbrella® acrylic, 3% PE

CUSHIONS

Filling in dryfoam which has an open cell structure, so air can circulate freely. Water passes through the filling, but dries quickly thanks to the large open pores, substantially inhibiting fungal growth. Fabrics available in category D, E & F.

PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Always make sure that furniture, cushions and covers are completely dry before covering furniture.

MAINTENANCE

Frame

Clean the frame with clear tap water and a pH-neutral fluid detergent. Stubborn stains can be removed with Aluminium Cleaner. We advise to use Metal Protector twice a year which applies an invisible protective film and protects the aluminium against the adhesion of dirt.

Aluminium
Cleaner

D9930
Metal Protector Teflon®
(spray that lays an invisible dirt-repellent film)

Weave

Before use, we recommend to treat the Tricord weave with Textile Protector which applies an invisible dirt and water repellent film. The weave can be cleaned with clear tap water and a ph-neutral detergent or Synthetics Super Cleaner.
