

## IRIS | LAMP

bs.living 

IRIS table lamp: Magnetic light for a daring design thanks to this model's mobile reflector which ensures the hemispheric movement of its light source. The perforated brass shade is fitted with a magnet which enables it to be positioned across the entire surface of its steel base. The centre is fitted with a LED light source which ensures freedom of movement and orientation of the light thanks to a wire system.

ref. LP-IV0016

### STRUCTURE

SATIN BLACK LACQUERED FINISH  
AND VARNISHED BRUSHED BRASS  
METAL BASE AND REMOVABLE  
REFLECTOR  
PERFORATED BRASS REFLECTOR
